Workshop to create „A Night in Renaissance“concert program

- 
- An international team of 15 performers from Latvia and Lithuania was working on the program for this event. Latvia was represented by the historical dance group Ballare, whose repertoire includes dances from various European countries from the Middle Ages to the 17th century. The original works of the old choreographers are used to prepare authentic dances. Ballare is led by certified ballerina and professional choreographer Guna Ezermale.
 - The Lithuanian team consisted of “Viduramžiai LT” dancers with the leader Karolis Jankauskas. The early dances’ dancers perform dances typical for 14th-15th centuries, revealing the passions of noble, poverty of beggars, the ecstasy of pilgrims, and the life of peasants, the happiness of lovers and pain of the outcasts. Every dance shows separate medieval life miniature. The dances performed were recreated by the best masters of ancient dance in Europe.
